---

The attached documents provided by the Structural Engineer detail the materials needed and specifications for the successful completion of the construction details provided in the original Invitation For Bids. While the list in Attachment 02 does not exactly align with the construction details, the Bid Form is organized so that the materials for each pile condition are listed per the notes in the details and materials list.

Due to this addendum arriving one day late, an extension to the deadline of three (3) hours is provided. The bid documents are now due by 3:00 PM on Monday September 29<sup>th</sup>. Late submissions will not be accepted. If you do not think you will be able to meet Monday's deadline please contact me at your earliest opportunity.
